# DFT 21C Support

Professor Kevin Bell

# Timelines

## DFT Content Build Support

- DFT have scheduled in dedicated build time for the 21C Projects over the next 4 months to ensure content build will be completed for November.
- The DFT deadline is 22<sup>nd</sup> June as content build can typically take up to 11 weeks including testing
- If you miss this deadline, we will have to revise our build timelines and discuss (revised) possibilities.

**Key date: 22<sup>nd</sup> June**

# How do I access content build support?

Reach out to DFT by Friday 22<sup>nd</sup> of June and let us know if you do or don't need content build support as this will allow DFT to adjust our schedule and work with you to achieve your goals.

# What do I need to provide DFT for the content build?

Once you've reached out to DFT we will provide you with a timeline to deliver your digital content to us. This includes elements such as:

- Text
- Video/audio
- Graphics/images
- Interactive item
- Assessment items

# Next Steps

- The **action** for Project Leads is to give DFT a clear YES OR NO as to whether you and your team will require DFT assistance and support.
- Let DFT know your content build requirements today during the Maker Space, or
- Email your 21C DFT project contact person by 22<sup>nd</sup> June and let us know if you require our assistance/support.

# Maker Space Sessions Today

- Register whether you need DFT assistance at the front desk on your way out
- If Yes - DFT will schedule a session with you today and join you in your room
- Still working in your learning outcomes? – continue this so that you can finalise and commence work on the design phase
- A vUWS site has been requested for all 21C Projects and Project Leads have been added as instructors
