

WESTERN SYDNEY
UNIVERSITY

POSTGRADUATE

Health Sciences

HEALTH SCIENCE

The Master of Health Science is designed for professionals working in a variety of health science settings, including both government and non-government organisations.

As a student you can select from three specialisations: Health Services Management, Aged Care Management (both accredited by the Australasian College of Health Service Management), and Occupational Health and Safety.

You will study a broad range of health science units relating to evidence-based health care and practice, health service planning, aged care management, health policy development, leadership, and health financial management.

WHAT YOU'LL STUDY

You will learn how to apply new and current strategies in management for effective planning and to improve health service outcomes, as well as how to critically evaluate organisational structures, organisational behaviour and management needs in the health care sector. You will also have the opportunity to learn how to apply key concepts and competencies associated with health policy, leadership, health financial management and applied research and evidenced-based practice to design and conduct a research-based project.

Western Sydney University offers a wide variety of options, with flexible delivery, taught by experts in the field. Flexible entry and exit points are available.

More information on course structures and units is available from the online University Handbook. Visit westernsydney.edu.au/future

CAREER OPPORTUNITIES

Our graduates are equipped to pursue careers in areas as diverse as health services management, aged care management, health planning, international health, health promotion, occupational health and safety, and further research studies.

Key: F = Full-time.

PUBLIC HEALTH

The Master of Public Health is designed for professionals working in a variety of health science settings, including both government and non-government organisations.

You will study a broad range of units relating to public health policy and practices, health promotion, evidence-based health care and practice, and a variety of health issues from an epidemiological perspective, leadership and management, and occupational health and safety.

WHAT YOU'LL STUDY

As a student you can study a wide range of public health evaluation processes and research methods such as policy analysis, economic evaluation, epidemiology and qualitative methods. You will receive practical skills in community development and health promotion programs, and students will have the opportunity to complete a culminating research and practice experience in the evaluation of a contemporary public health issue. Western Sydney University offers a wide variety of options, with flexible delivery, taught by experts in the field.

More information on course structures and units is available from the online University Handbook. Visit westernsydney.edu.au/future

CAREER OPPORTUNITIES

Our graduates are equipped to pursue a wide range of careers in areas as diverse as health promotion, health education, infection control, global health, epidemiology, case management, health workforce planning and further research studies.

Students enrolled in the Graduate Diploma or the Graduate Certificate may go on to study the Master in Health Science, following satisfactory completion of relevant units.</p>		

Key: F = Full-time.

CHINESE MEDICINE

LEARN THE ART OF CHINESE MEDICINE

The Master of Chinese Medicine is a postgraduate qualification designed for Chinese medicine practitioners wishing to strengthen their knowledge and better integrate into the health care system, and for graduates with a Chinese Medicine specialisation seeking a pathway to research. It can be completed in one-and-a-half years of full-time study or the equivalent in part-time study.

WHAT YOU'LL STUDY

The course includes two major streams: a clinical stream and research-training pathway. The clinical stream features significant clinical training, with the opportunity of a placement in Beijing University of Chinese Medicine (BJUCM) training hospitals, in addition to clinical specialisation workshops.

The research stream includes a significant research project which is supported by the National Institute of Complementary Medicine (NICM). If you wish to enter the research stream you must meet the entry requirements (GPA of 5); graduates of this stream may be interested in furthering their studies in a higher degree.

By completing the Master of Chinese Medicine, including the clinical placement at BJUCM, you will also be awarded the Postgraduate Diploma in Chinese Medicine from BJUCM. You may exit the Master of Chinese Medicine after one semester (i.e. after completing 40 credit points) with the Graduate Certificate in Chinese Medicine.

In the clinical specialisation stream you may exit the Master of Chinese Medicine after two semesters (i.e. after completing 80 credit points) with the Graduate Diploma in Chinese Medicine. You can combine your studies in Chinese Medicine with additional postgraduate units in public health and health science. If you complete an additional four units from the Master of Public Health, you will be eligible to also graduate with a Master of Public Health in addition to the Master of Chinese Medicine.

More information on course structures and units is available from the online University Handbook. Visit westernsydney.edu.au/future

CAREER OPPORTUNITIES

Chinese Medicine is used by over a quarter of the world's population and is the largest form of complementary medicine in Australia. This growing industry increases career opportunities locally and overseas for progressive Western Sydney University graduates.

MASTER OF CHINESE MEDICINE

Apply Direct Code	4716
CRICOS Code	085664A
Duration	1.5F
Location	Campbelltown
Intakes	March/July
Admission	<p>Applicants must have either:</p> <p>An undergraduate degree in Acupuncture or Traditional Chinese Medicine</p> <p>OR</p> <p>A Diploma, Advanced Diploma or Associate Degree in Traditional Chinese Medicine or Acupuncture AND five years full-time equivalent clinical work experience in the field of Traditional Chinese Medicine or Acupuncture</p> <p>If you are seeking admission on the basis of work experience, you must support your application with a detailed Statement of Service.</p> <p>Applicants holding registration from the Chinese Medicine Registration Board of Australia (CMBA), or full membership of specified professional associations, will be accepted without additional assessment. Applicants holding any type of membership other than full membership from the specified associations will be further assessed.
